

Omni Channel PPC Brief

Johnnie J. O'Dell Jr.
Chief Science Officer (CSO)

Introduction

The only marketing that improves all other marketing is Omni Channel PPC. An Omni Channel PPC marketing program that was created with your success in mind, focusing on serving business owners with a proven system to increase sales by as much as 40% while reducing the cost per lead by as much as 89%. Omni Targeting is perfect for businesses that whose services are searched for online and their prospect research companies before making a buying decision.

Using Omni Channel PPC Marketing you can stay top-of-mind with prospects who are the most engaged with your business i.e., those who have already visited your website.

It does this by telling your business story through ads on:

Gmail
YouTube
Facebook
Instagram
LinkedIn

As well as numerous industry leading websites such as Amazon, Tripadvisor, Yahoo, CNN and BBC.

If that wasn't good enough, our research has shown that only 1% of businesses are fully taking advantage of this audience opportunity. Welcome to the 1% club!

Product Specification

FAQ's

Question	Answer
How can I see my ads?	A link to ad examples can be provided. We are unable to force ads to show to specific users in a live environment.

	There are many reasons someone may not be served one of our ads.
When will we go live?	Setup for this service is typically 7-10 days. This is dependent on receipt of all requested information. In addition to our setup, there are other requirements that are out of our control that we may encounter and can delay launch. These include policy issues on the website, did not implement Google Tag Manager, billing information was not provided, there is not enough site traffic to build a large enough list (varies by platform), etc.
Ad rotation, content updates, campaign optimizations.	Provides additional assets as they are collected over time to assist in keeping ad content seasonably relevant.
How do I know how these campaigns are performing?	Our 360 tracking package.
Why is there a monthly fee?	We will be performing ad rotations and additional optimizations to improve your reach, reduce banner blindness and increase engagement.
What happens if I change my mind?	If the Onboarding Call has taken place, then we are unable to refund the Onboarding fee. However, we will pause the subscription so that the monthly fee is not charged. If you changes the direction of your campaign after the Onboarding Call, then you will be subject to an additional Onboarding fee.

Any Policy Issues?

If you have questions around policy issues please let us know.

Our approach in restricted niches...

We aim to be Omnipresent in all networks. When we can't we run a minimum of two networks. Most often, the problem comes with Google and so we rely more heavily on Trafficfuel. It's not perfect but still provides more coverage than just about any other platform.
